**Early Intervention/Extended Services (EI/ES) Survey:** In 2022, the Bureau of Early Intervention offered an option for extending early intervention services past the child's third birthday for children who turned 3 between May 1st and August 31st. The Bureau is requesting your assistance in assessing the current procedures related to engaging in the extension of services through the summer months. If you could complete the survey by choosing the link below, the survey will help the Bureau of Early Intervention understand the strengths and challenges that occurred with the implementation of these extended early intervention services.

We value your feedback and want to learn as much as we can about your experience with Extended Services. Your input will directly impact any updates/clarification that are made to the current procedure. Please access the survey and complete as soon as possible.

The survey will be open **until March 10, 2023**.
